

THE LGC METERING & CLOUD SOLUTION

LGC SUCCESS = COMPLIANT METERING + INTERVAL DATA

NMI APPROVED ENERGY METER

Import/Export Four (4) Quadrant Measurement

Features/Benefits

- Accuracy Class 0.5S
- kWh Energy Meter
- Input 5A/10A (use with extended range CT's)
- Direct Connect 0-100A
- HACS Input (via SATEC CTs)
- Measure multiple electrical parameters
- Real Time Clock (RTC)
- Date/Time stamping
- Profile interval data - up to three (3) data logs
- Event data log
- Industry best 8MB memory
- 5 minute interval data
- Power Quality Logs
- RS485 / Ethernet Communications
- Energy Data for Renewable Certificates (REC)

Certification

- NMI M6-1
- NITP-14
- AS 62053-22
- AS 62052-11
- ISO 17025 Laboratory
- NATA Test Laboratory

Cloud Services (SaaS)

- Load Profiling
- Interval Data
- API
- Graphical Representations
- Geolocation
- Export to MS Excel and PDF formats
- Alarms / Events
