

July 9, 2019

To whom it may concern:

Itron's MV-90 xi system includes, as standard functionality, the ability to perform remote interrogation for the below SATEC meters.

- PM172E
- PM174
- PM175
- PM180
- EM133
- EM920
- BFM136

Register decode support is available for each device. Probe support is only available for the EM920.

Regards,
